INTRODUCTION

DEAR CUSTOMER,

Congratulations on your purchase of the BONECO F100 Air Shower Fan. This high-performance unit seamlessly adapts to meet your needs. When set to the lower output levels, it provides a pleasant breeze in your home on hot days. On the other hand, if you use an air-conditioning system, the unit's powerful fan distributes the air throughout the room ensuring a uniform temperature.

In developing the BONECO F100, low-maintenance operation and durability were of primary importance. The fan blade's one-of-a-kind shape creates a uniform air flow using minimal energy, which is also good for the environment. The elegant design harmonizes with any decorative style so that you can use your BONECO F100 throughout the entire year.

We hope you enjoy your new BONECO F100!

ITEMS INCLUDED

BONECO F100
Air Shower System
with power cord

Manual

Safety instructions

OVERVIEW AND PART NAMES

- 1 Power cord connection
- 2 Output level display
- 3 Touch control panel

START-UP**1**

Connect the included power cord to the unit.

2

Plug the power cord into a power outlet.

3

Activate the BONECO F100 by tapping on the control panel.

4

Tap on the control panel again to control the output.

POSITIONING TIPS

LOCATION

In order to create a comfortable climate, you should not point the unit directly at your face or your body.

NOTES ON PERFORMANCE

The BONECO F100 is equipped with a high-performance fan that can move large amounts of air. Making use of this feature: Guide the air in a specific direction to achieve a uniform room climate. The following examples illustrate how to do this.

AIR-CONDITIONING SYSTEM (AC)

An air conditioner distributes the temperature in various ways. Use the BONECO F100 to move the warm air towards the air-conditioning system. This can be done directly or indirectly via air circulation, as shown in this image.

FRESH AIR

The BONECO F100 helps you achieve better ventilation indoors. If cross-ventilation is not created, guide fresh air directly from the window into the desired room.

CLEANING

SAFETY INSTRUCTIONS

 Always unplug the BONECO F100 before you begin cleaning! Failure to do so can result in electric shock and fatal injury!

 Do not use alcohol or corrosive cleaning agents for cleaning.

CLEANING THE HOUSING

The BONECO F100 is designed for low-maintenance operation, even after years of use. In most cases, a dry cloth can be used for cleaning.

If stubborn dirt is present, clean the housing using a damp cloth. Add a small amount of dishwashing detergent to the water.

CLEANING THE FAN BLADES

1. Unscrew the safety screw on the underside of the housing.

2. Remove the front grill by turning counterclockwise slightly.

3. Unscrew the safety screw in the middle by turning it clockwise.

4. Remove the fan blade and clean it with a damp cloth.

5. Put the unit back together by following the steps in reverse order.

6. Attach the front grill with the safety screw. When doing so, pay attention to the position of the screw on the front grill.
